WSTĘP

W 2023 roku w kilku państwach powstały nowe hodowle żubrów, a także reaktywowano kilka hodowli, które wcześniej posiadały żubry.

W Białorusi powstała nowa półwolna hodowla ♦OKHOTKHOZJAJSTVO «BELYJ LOS'», do której przywieziono samca i samicę z innej białoruskiej półwolnej hodowli – ♦MOGILEVSKIJJ ZOOSAD.

W Belgii utworzono nową hodowlę w La Roche-en-Ardenne, dokąd przywieziono dwa samce z innej belgijskiej hodowli – Theux, która zaniechała utrzymywania żubrów.

We Francji reaktywowano hodowlę w Boutissaint, przywożąc dwa samce z Han-sur-Lesse oraz utworzono nową hodowlę Doucier, dokąd przywieziono byka z Piney.

W Niemczech reaktywowano dwie hodowle: Hundshaupten (przywieziono jednego samca i dwie samice z Donaumoos) oraz Neuwied (przywieziono dwa byki – z Neumünster i z Saarbrücken). Powstały także dwie nowe hodowle: Daun, dokąd przywieziono trzy samice z Hirschfeld oraz Moritzburg, dokąd przywieziono dwa młode samce: z Saarbrücken i z Schorfheide.

W Polsce reaktywowano hodowlę w Białymstoku (przywieziono samicę i samca z Poznania). Powstały też trzy nowe hodowle: w Kopnej Górze (przywieziono samca z Niepołomic, drugiego samca z Woliska oraz dwie krowy: z Warszawy i z Białowieży), w Krajewie (przywieziono byka z Międzyzdrojów, krowę z Białowieży i dwie krowy z Woliska) i w Raciborzu-Brzeziu (przywieziono byka z Gołuchowa i trzy krowy z Pszczyny).

Na Litwie utworzono zamkniętą hodowlę Dzūkija National Park, dokąd przywieziono samca z hodowli Telšią.

W Rosji powstała nowa zamknięta hodowla żubrów Prirodnyj park «Muradymovskoe ushhel'e») i nowa wolna hodowla o tej samej nazwie – PRIRODNYJ PARK «MURADYMOVSKOE USHHEL'E». W obydwu tych hodowlach żyją żubry nizinne przywiezione z białoruskiej hodowli wolnej NACIONAL'NYJ PARK «BELOVEZHSKAJA PUSHHA». Powstała także hodowla w miejscowości Likhachovo, dokąd przywieziono samca żubra z Lipecka.

W Hiszpanii utworzono nową półwolną hodowlę ♦VILLARRUBIA DE LOS OJOS z żubrów przywiezionych z Pszczyny, Los Porretales i ♦LA SERRETA. Reaktywowano także zamkniętą hodowlę Madrid, dokąd przywieziono samca z Thoiry (Francja) oraz dwie samice z Jerez (Hiszpania).

Szczegółowe informacje o żubrach przywiezionych do wymienionych wyżej nowych i reaktywowanych hodowli znajdują się w tabeli *Zmiany stanu żubrów w roku 2023*

W niniejszym zeszycie wprowadzono kilka poprawek w nazwach właścicieli/zarządców hodowli. Właścicielem niemieckiej hodowli Cuxhavener Küstenheiden jest faktycznie od 2017 roku pan Arne Hasenkampf z Cuxhaven, a nie Nationalparkverwaltung „Niedersächsisches Wattenmeer” – Biosphärenreservat. Hodowla Schopfheim-Gersbach (Niemcy) wróciła pod opiekę pana Jürgena Pflügera. Właścicielem hodowli Herne Bay (Wielka Brytania) jest The Kent Wildlife Trust, a nie – jak mylnie wcześniej podano – Wildwood Trust. Właściwa nazwa rosyjskiej hodowli PENZENSKAJA OBLAST', OOO «VIOLA», to: ♦KOSTROMSKAJA OBLAST' i obecnie jest to hodowla półwolna.

Podczas liczenia żubrów w wolnej hodowli NÁRODNÝ PARK POLONINY (Slovak Rep.) nie stwierdzono ani jednego osobnika. Dlatego też w niniejszym zeszycie KRŽ, w tabeli *Światowy stan żubrów czystej krwi na dzień 31 grudnia 2023* hodowla ta nie figuruje. Przymuszczalnie wszystkie żubry z tej hodowli przeszły na terytorium Polski i dołączyły do żubrów w hodowli BIESZCZADY.

Małgorzata Bolbot

INTRODUCTION

In 2023, new European bison breeding centres were established in several countries, and several breeding centres that previously had European bison were reactivated.

A new semi-free breeding centre ♦OKHOTKHOZJAJSTVO "BELYJ LOS" was established in Belarus, to which a male and a female were brought from another Belarusian semi-free breeding centre ♦MOGILEVSKIJ ZOOSAD.

In Belgium, a new breeding centre was set up in La Roche-en-Ardenne, where two males were brought in from another Belgian enclosure, Theux, which had discontinued keeping European bison.

In France, the Boutissaint European bison breeding centre was reactivated, bringing in two males from Han-sur-Lesse, and a new Doucier breeding centre was set up, where a bull was brought in from Piney.

In Germany, two breeding centres were reactivated: Hundshaupten (one male and two females were brought in from Donaumoos) and Neuwied (two bulls were brought in – from Neumünster and Saarbrücken). Two new breeding centres were also established: Daun, where three females were brought in from Hirschfeld, and Moritzburg, where two young males were brought in from Saarbrücken and from Schorfheide.

In Poland, a breeding centre has been reactivated in Białystok (one female and one male were brought in from Poznań). Three new breeding centres have been established: in Kopna Góra (one male from Niepołomice was brought in, another one from Wolisko as well as two cows: from Warsaw and Białowieża), in Krajewo (a male from Międzyzdroje, a cow from Białowieża and two cows from Wolisko were brought in) and in Racibórz-Brzeziny (a bull from Gołuchów and three cows from Pszczyna were brought in).

In Lithuania, a closed breeding centre was established at Dzūkija National Park, where a male was brought from Telšiai.

In Russia, a new closed European bison breeding centre Prirodnyj park 'Muradymovskoe ushhel'e' and a new free-living breeding centre of the same name – PRIRODNYJ PARK 'MURADYMOVSKOE USHHEL'E' – have been established. Both of these breedings are home to lowland European bison brought from the Belarusian free-living breeding NACIONAL'NYJ PARK 'BELOVEZHСКАЈА PUSHHA'. A breeding centre was also established in Likhachovo, where a male was brought from Lipeck.

In Spain, a new semi-free breeding centre ♦VILLARRUBIA DE LOS OJOS was established from European bison brought from Pszczyna, Los Porretales and ♦LA SERRETA. The closed Madrid breeding centre was also reactivated, where a male from Thoiry (France) and two females from Jerez (Spain) were brought.

For detailed information on the European bison brought to the above-mentioned new and reactivated breedings, see the *Transfers of European bison in 2023* table.

In this issue, several corrections have been made to the names of the owners/managers of the breeding centres. Since 2017, the owner of the German breeding centre Cuxhavener Küstenheiden has in fact been Mr. Arne Hasenkampf from Cuxhaven, not the Nationalparkverwaltung 'Niedersächsisches Wattenmeer' – Biosphärenreservat. The Schopfheim-Gersbach (Germany) breeding centre moved back to Mr. Jürgen Pflüger's hands. The Herne Bay breeding centre (Great Britain) is owned by The Kent Wildlife Trust and not, as misleadingly stated earlier, the Wildwood Trust. The proper name of the Russian breeding centre PENZENSKAJA OBLAST', OOO 'VIOLA' is ♦KOSTROMSKAJA OBLAST', which currently is a semi-free breeding centre.

During the counting of European bison in the free-living breeding centre NÁRODNÝ PARK POLONINY (Slovak Rep.), not a single individual was found. Therefore, in this issue of the European Bison Pedigree Book, this breeding centre has not been listed in the *World register of living pure-bred European bison on 31 December 2023* table. Presumably, all the European bison from this breeding centre have entered the Polish territory and joined the European bison in the BIESZCZADY breeding centre.

Małgorzata Bołbot

Pamięci dr. Jana Raczyńskiego
Redaktora Księgi Rodowodowej Żubrów
(1936–2024)

Między przeszłością i przyszłością
Dwoma nieskończonościami,
Nasze krótkie życie
Rozbłyскуje na chwilę i gaśnie.
Robert Louis Stevenson

Jan Raczyński urodził się w Białej Podlaskiej. W 1958 roku ukończył studia na Wydziale Biologii i Nauk o Ziemi Uniwersytetu Marii Curie-Skłodowskiej w Lublinie. Rok później zamieszkał w Białowieży i rozpoczął pracę w Zakładzie Badania Ssaków. Początkowo zajmował się małymi ssakami, głównie ryjówkowatymi i gryzoniami. Później przyszła kolej na badanie zajęcy. Praca doktorska Jana Raczyńskiego, obroniona w 1966 roku, dotyczyła rozrodu zająca szaraka. Kolejnym obiektem badań dr. Raczyńskiego był żubr. We współpracy ze Zbigniewem A. Krasieńskim,

Archiwum prywatne

lekarzem weterynarii zatrudnionym w Białowieżskim Parku Narodowym, powstał artykuł „Biologia rozrodu żubra w rezerwach i na wolności”, opublikowany w kwartalniku naukowym „Acta Theriologica” w 1967 roku.

Jesienią 1968 roku dr. Raczyńskiemu zaproponowano wyjazd na stypendium do Berlina Wschodniego. We wrześniu tego samego roku zmarła w Hamburgu dr Erna Mohr, której wolą było przekazanie Polsce bezcennego archiwum Księgi Rodowodowej Żubrów. Ostateczna decyzja w tej sprawie należała do siostry dr Mohr, pani Mety Schaubach, mieszkającej wówczas w Berlinie Zachodnim. Udało się zdobyć numer telefonu do pani Schabach i dr Raczyński, będąc już w NRD, skontaktował się z nią i otrzymał zaproszenie na spotkanie w jej domu. Każdy, kto znał dr. Raczyńskiego wie, że był człowiekiem wielkiej kultury, sympatycznym i ujmującym rozmówcą. Znał język niemiecki, więc mógł swobodnie rozmawiać z panią Schaubach i jej mężem. Z pewnością zrobił bardzo dobre wrażenie, bo otrzymał zaproszenie na kolejną

wizytę. Po kilku spotkaniach pani Meta Schaubach zdecydowała się spełnić wolę siostry i przekazać na ręce dr. Raczyńskiego całe archiwum dr Erny Mohr. Dr Raczyński musiał jeszcze zorganizować transport tych materiałów do Polski, co w owym czasie, gdy Europa była podzielona na dwa wrogie obozy, nie było rzeczą łatwą. Jednak dzięki uporowi i wytrwałości udało się przekonać osoby decyzyjne w polskim konsulacie i za pośrednictwem wynajętej firmy przewozowej bezcenne archiwum dr Erny Mohr trafiło do Białowieży.

Po powrocie z NRD, dr Jan Raczyński podjął się prowadzenia Księgi Rodowodowej Żubrów jako Sekretarz Redakcji. Redaktorem był dr Jan Żabiński, który w tym czasie już ciężko chorował. Faktycznie więc Księgę prowadził dr Raczyński. On też dokonał zmian w układzie

tabelarycznym KRŻ oraz w szacie graficznej. Pojawiło się nowe logo autorstwa Jerzego Deselbergera i zróżnicowane kolory okładek zeszytów KRŻ. Niestety, gdy w 1974 roku zmarł dr Jan Żabiński, a KRŻ funkcjonowała coraz lepiej, na szczeblu ministerialnym i władz PAN zdecydowano przenieść Redakcję Księgi do zoo w Warszawie. Dr. Raczyńskiemu nie pozwolono nawet rozesłać do hodowców informacji o zmianach i pożegnać się z nimi listownie, dziękując za lata współpracy. W tej sytuacji zdecydował się złożyć wypowiedzenie z funkcji Sekretarza KRŻ. Prowadzeniem Księgi zajęły się nowe osoby, a dr Raczyński znów skupił się na pracy naukowo-badawczej. Swoją wiedzę o żubrze wykorzystał jeszcze w opublikowanym w 1978 roku albumie „Żubr”, do którego napisał tekst oraz użyczył kilku swoich zdjęć (obok zdjęć innych autorów).

Za jedno z największych osiągnięć naukowych dr. Jana Raczyńskiego uważa się wydany w 1983 roku „Atlas rozmieszczenia ssaków w Polsce”, zredagowany wspólnie z prof. Zdzisławem Puckiem.

Na początku lat 80. XX w. dr Jan Raczyński rozpoczął współpracę z Uniwersytetem Warszawskim Filią w Białymstoku (od 1997 roku Uniwersytet w Białymstoku), gdzie prowadził zajęcia ze studentami. Praca dydaktyczna okazała się tak wciągająca, że w 1984 roku dr Raczyński przeprowadził się z Białowieży do Białegostoku i poświęcił się całkowicie działalności dydaktyczno-naukowej na Uniwersytecie. Szczególnie lubił wyjazdy terenowe z młodzieżą, a jego studenci do dziś wspominają zimowe liczenia łosi. Łoś bowiem był kolejnym gatunkiem, którego biologię, behavior, rozmieszczenie i migracje badał dr Raczyński. Zainteresowanie tym gatunkiem zaowocowało wieloma publikacjami, zaś dr Raczyński stał się jednym z najlepszych ekspertów od łosia w Polsce.

Księga Rodowodowa Żubrów „upomniła się” o dr. Raczyńskiego w 1991 roku, gdy Redakcja została znów przeniesiona do Białowieży (dokładnie do Białowieskiego Parku Narodowego), zaś ówczesny dyrektor BPN, prof. Aleksander W. Sokołowski, zaproponował dr. Raczyńskiemu stanowisko Redaktora. Wówczas też rozpoczęła się moja współpraca z panem Doktorem, bo mnie powierzono stanowisko Sekretarza Redakcji KRŻ. Każdemu szczerze życzę takiego szefa. Dr Raczyński był klasą samą w sobie. Wszystkiego, co wiem o KRŻ i jej prowadzeniu, nauczyłam się od pana Doktora. Był dla mnie nauczycielem, mentorem, ale też przyjacielem, oraz wielkim autorytetem. A przy tym traktował mnie zawsze z szacunkiem, jak równorzędnego partnera. Podobnie zresztą odnosił się do innych ludzi. Cechowała Go wielka kultura osobista. Nigdy się nie unosił, nie podnosił głosu, zawsze dążył do zgody i porozumienia. Z łagodnym i życzliwym uśmiechem na twarzy potrafił cierpliwie tłumaczyć i umiał słuchać innych. Dzielił się swoją wiedzą z wielką radością i zaangażowaniem, ale był też otwarty na uczenie się od innych. Przez 33 lata wspólnej pracy opublikowaliśmy 32 zeszyty KRŻ. Początek był niełatwy, gdyż musieliśmy nadrobić kilkuletnie zaległości w wydawaniu Księgi, a były to czasy sprzed epoki Internetu, więc uzyskiwanie informacji o żubrach odbywało się drogą listową i trwało często tygodniami, a nawet miesiącami. Z roku na rok efekty naszej pracy były coraz lepsze, bo współpraca z hodowcami była coraz sprawniejsza. Jednakże pojawiały się problemy ze zwierzchnikami. Przeszliśmy razem trzy konflikty z trzema różnymi dyrektorami Białowieskiego Parku Narodowego, którzy koniecznie chcieli wprowadzać rewolucyjne zmiany w Redakcji KRŻ, a zwłaszcza zmiany personalne. Za każdym razem to dyrektor był odwoływany, a Redakcja przetrwała. Dr Raczyński pracował i prowadził Księgę do końca życia, czyli do marca 2024 roku. Jeszcze kilka dni przed Jego śmiercią rozmawialiśmy telefonicznie i uzgadnialiśmy sprawy wydawnicze. Niestety, niniejszy zeszyt jest ostatnim, który wspólnie przygotowaliśmy i ostatnim, wydanym pod redakcją dr. Jana Raczyńskiego. Śmierć pana Doktora to ogromna strata dla KRŻ, a także dla mnie prywatnie. I nie tylko dla mnie, bo na adres Redakcji napłynęło wiele maili od osób, które znały i ceniły

dr. Raczyńskiego. Listy te zawierały dużo ciepłych wspomnień i dużo smutku z powodu tej wielkiej straty dla całej „społeczności żubrologów”. Synom pana Doktora – Krzysztofowi i Wojciechowi – przekazałam wyrazy współczucia od wszystkich, którzy o to prosili. A jak bardzo dr Raczyński był szanowany przez wielu, niech zaświadczą poniższe cytaty:

Mam miłe wspomnienia z naszych spotkań i byłem pod wrażeniem Jego bogatego doświadczenia i wiedzy.

Jego śmierć jest wielką stratą dla żubrowej społeczności.

Wszyscy jesteśmy Mu winni podziękowania i zachowamy Go w dobrej pamięci.

Johannes Riedl

To bardzo smutne. Śmierć Jana jest wielką stratą dla żubrowej społeczności. Był fantastyczną osobą i absolutnym ekspertem od żubra. Naprawdę cieszyła mnie rozmowa z nim i miłe wspominam nasze spotkania, szczególnie jego ostatnią wizytę w Springe. Jest mi smutno...

Thomas Hennig

Od pierwszego spotkania Jan traktował mnie jak równego sobie, a nie jak mistrz złotodzioba. Dzielił się ze mną swoją niesamowitą wiedzą bez ograniczeń. Spotykaliśmy się co roku w Polsce i kilka razy w Hardehausen.

Janie, dziękuję Ci za przyjaźń.

Pozostawiasz bardzo dużą lukę w żubrowym świecie.

Rainer Glunz

Nie mam słów...

Gdy ten Człowiek, kiedyś zaproponował mi przejście „na Ty”, byłem zaszczycony, bo dotknąłem legendy.

Wojciech Bielecki

Wiem, że walczył o gatunek i jego rejestrację w Księdze Rodowodowej aż do ostatnich dni z niesamowitą odwagą i poświęceniem, szczególnie biorąc pod uwagę Jego już zaawansowany wiek.

Fernando Moran

To bardzo smutna wiadomość i jestem bardzo smutny i rozstrojony.

Z Janem Raczyńskim znałem się osobiście od lat 80. XX w. Był wspaniałą osobą i prawdziwym profesjonalistą w swojej dziedzinie. Szczerze kochał i troszczył się o dobrobyt żubra i wszystkie sprawy mające na celu jego zachowanie. Wraz ze śmiercią Jana odchodzi cała epoka ratowania tego gatunku na świecie.

Taras Sipko

To złe wieści i jestem bardzo smutny. [...]

Zawsze lubiłem z Nim korespondować, zawsze pomagał mi, gdy miałem pytania lub prośby, a szczególnie miło wspominam jedyny raz, kiedy spotkałem Go osobiście w Hardehausen w 2018 roku i dużo z Nim rozmawiałem.

Zawsze będę Go pamiętał.

Klaus Böhme

To bardzo, bardzo smutna wiadomość...

To bardzo duża strata, gdy kogoś takiego jak On już nie ma.

Był bardzo przyjazną osobą, więc musimy o Nim myśleć i wspominać mile chwile, kiedy mieliśmy okazję się z Nim spotkać i porozmawiać. [...]

Tak, myślę o Nim za każdym razem, gdy pracuję ze zdjęciami Erny Mohr. I tak, bardzo się cieszę, że miałem okazję spotkać Go kilka razy. Myślę o tych czasach, kiedy pokazał mi Ośrodek Hodowli Żubrów w Białowieży i kiedy pokazał mi „Björnsona” w sali konferencyjnej!!!

I zawsze będę pamiętać ciebie [red.: M. Bołbot] i Jego jako bardzo udany zespół pracujący nad Księgą Rodowodową.

Pamiętam, jak razem z Nim spacerowaliśmy po Puszczy Białowieskiej w pobliżu granicy z Białorusią i mieliśmy okazję porozmawiać o wielu rzeczach. I dziwną rzeczą było to, że rozmawialiśmy wtedy o roślinie/kwiecie. Nie znam angielskiej nazwy, mówiliśmy o niej „Dafne...”. I wiercie lub nie, ale ta roślina kwitła wczoraj w moim ogrodzie!!!!

Tommy Svensson

Żegnaj, Panie Doktorze! Żegnaj Przyjacielu!

Małgorzata Bołbot

In memory of Dr. Jan Raczyński
The Editor of the European Bison Pedigree Book
(1936–2024)

*Between the past and the future,
Those two black infinities
Between which our brief life
Flashes a moment and goes out.*

Robert Louis Stevenson

Jan Raczyński was born in Biała Podlaska. In 1958, he graduated from the Faculty of Biology and Earth Sciences at the Maria Curie-Skłodowska University in Lublin. A year later, he relocated to Białowieża and started working at the Mammal Research Institute. Initially, his research was focused on small mammals, mainly shrews and rodents. After that, an in-depth study of hares followed. Jan Raczyński's doctoral thesis, successfully presented in 1966, concerned the reproductive activity of the grey hare. Another object of Dr. Raczyński's

Private collection

research was the European bison. With Zbigniew A. Krasieński as a coauthor – a veterinarian employed in the Białowieża National Park – an article titled ‘Biology of European bison reproduction in nature reserves and in the wild’ was written and published in the scientific quarterly ‘Acta Theriologica’ in 1967.

In autumn 1968, Dr. Raczyński was offered a scholarship opportunity in East Berlin. In September the same year, in Hamburg, Dr. Erna Mohr passed away, whose wish was to donate the priceless archive of the European Bison Pedigree Book to Poland. The final decision on this matter rested with Dr. Mohr's sister, Mrs. Meta Schaubach, who was living in West Berlin at the time. Having managed to get Mrs. Schaubach's telephone number, Dr. Raczyński, already in East Germany, contacted her and received an invitation to meet her at her home. Everyone who knew Dr. Raczyński is aware of the fact that he was a man of fine culture, a friendly and engaging interlocutor. He spoke German, so he was able to have a conver-

sation with Mrs. Schaubach and her husband. He must have made a good impression as he received another invitation from them. After meeting up with him a few times, Mrs. Meta Schaubach decided to fulfil her sister's wish and pass on the entire archive of late Dr. Erna Mohr to Dr. Raczyński's hands. One last task to complete was to organize transfer of the materials and documents to Poland, which at the time was not an easy thing to do because of the two opposing regimes Europe was divided into. However, thanks to persistence and perseverance, it was possible to convince the decision-makers at the Polish consulate and, via a hired transport company, Dr. Erna Mohr's priceless archive made its way to Białowieża.

After his return from East Germany, Dr. Jan Raczyński stepped in to run the European Bison Pedigree Book as Editorial Secretary. Dr. Jan Żabiński – who was seriously ill at the time – was the Editor. So it was Dr. Raczyński that actually was running the Book. He also made some changes to the table layout and graphic design of the European Bison Pedigree Book. There was a new logo by Jerzy Desselberg and varied colours of the covers of the issues. Unfortunately, when Dr. Jan Żabiński died in 1974, and the Book was getting more and more successful, some ministers and the authorities of the Polish Academy of Sciences decided to move the Editorial Office to the zoo in Warsaw. Dr. Raczyński was not even allowed to send thank you and goodbye letters to all the breeders, informing them of the changes. As a result of this situation, he decided to resign from his post of Secretary. The Book was taken over by new people, and Dr. Raczyński once again focused on scientific and research work. His extensive knowledge of the European bison was utilised again in an album titled ‘The European Bison’, which was published in 1978. He wrote it and lent some of his photos (alongside photographs by other authors).

‘The Atlas of the Distribution of Mammals in Poland’, published in 1983 and edited together with Prof. Zdzisław Puck, is considered to be one of Dr. Jan Raczyński’s greatest scientific achievements.

In the early 1980s, Dr. Jan Raczyński began working with the University of Warsaw Białystok Branch (since 1997 the University of Białystok), where he carried out classes with students. The teaching work proved so engaging that in 1984 Dr. Raczyński moved from Białowieża to Białystok and devoted himself entirely to teaching and research at the University. He particularly enjoyed field trips with young people, and his students still recall winter moose counts. Indeed, the moose was another species whose biology, behaviour, distribution, and migrations were studied by Dr. Raczyński. His interest in the species has resulted in many publications, and Dr. Raczyński became one of the best moose experts in Poland.

The European Bison Pedigree Book ‘claimed’ Dr. Raczyński in 1991, when the Editorial Office moved back to Białowieża (the Białowieża National Park, to be precise). Its director at the time, Prof. Aleksander W. Sokołowski, offered the post of the Editor to Dr. Raczyński. It was when my cooperation with Dr. Raczyński commenced as I became the Editorial Secretary. I sincerely wish everyone a boss like that. Dr. Raczyński was by far from a league of his own. Everything I know about the European Bison Pedigree Book I learnt from him. He was my teacher, mentor but also a friend, and at the same a great figure of authority. He always treated me with respect like an equal partner. Likewise, he treated everyone that way. He had great manners. He never bridled or raised his voice. He always strived for understanding and compromise. With a gentle and kind smile on his face, he was able to explain patiently and knew how to listen to others. He shared his knowledge with great joy and commitment, but was also open to learning from others. In the 33 years we have been working together, we have published 32 issues of the Book. The beginning was not easy, as we had to catch up with several years of backlog in the publication of the Book, and those were times before the Internet era, so getting information about European bison was done by letter and often took weeks or even months. Year after year, the results of our work got better and better, as cooperation with the breeders became more efficient, but there were some problems with the superiors. We went through three disagreements with three different directors of the Białowieża National Park, who desperately wanted to introduce revolutionary changes in the Editorial Office of the EBPB, especially staff changes. Each time, it was the director who was called off and the Editorial Office that survived. Dr. Raczyński worked on and managed the Book until the end of his life in March 2024. Even a few days before his death, we were still on the phone and making publishing arrangements. Regrettably, this issue is the last one we prepared together and the last one published under the editorship of Dr. Jan Raczyński. His death is a huge loss both professionally and privately for me.

As it turned out not only for me. I have received many emails from people who knew and appreciated Dr. Raczyński. Those emails were full of fond memories and great sadness because of this huge loss for the whole 'European bison community'. From all who have asked me to, I have passed on sincere condolences to Dr. Raczyński's sons – Wojciech and Krzysztof. And how much Dr. Raczyński was respected by many, let the following quotes attest:

I have fond memories of our meetings and was very impressed by his wealth of experience and knowledge.

His death is a great loss for the Wisent community.

We all owe him our thanks and we will keep him in good memory.

Johannes Riedl

It's very sad. Jan's death is a great loss for the wisent community. He was a great person and an absolute expert on wisent. I really enjoyed talking to him and look back fondly on our meetings, especially on his last visit to Springe. I am sad...

Thomas Hennig

From day one, Jan treated me as an equal and not as a wisent greenhorn. He shared his incredible knowledge with me without reservation and we met annually in Poland and several times in Hardehausen.

Thank you Jan, for your friendship.

You are leaving a very big gap in the wisent world.

Rainer Glunz

I have no words...

When this Man, once offered me the opportunity to be on first-name terms, I was honoured because I had touched a legend.

Wojciech Bielecki

I know that he fought for the species and its registration in the Pedigree book until his last days with incredible courage and merit, even given his already advanced age.

Fernando Moran

It is a very sad news. I am very sad and upset.

I have known Jan Raczyński since the 1980s. He was a great person and a true professional in his field. He sincerely loved and cared about the welfare of the European bison and all matters aimed at preserving them. With Jan's death, an entire era of saving the species worldwide is gone.

Taras Sipko

This is bad news and I am very sad. [...]

I always enjoyed corresponding with him, he always helped me when I had questions or requests and I particularly fondly remember the only time I met him in person in Hardehausen in 2018 and I talked to him a lot.

I will always remember him.

Klaus Böhme

That was very, very sad news...

It is a very large lost when a person such as him not exist anymore.

He was so friendly person, so we must think about him and remember the nice times we had the opportunity to meet and talk with him. [...]

Yes, I think about him every time I work with the photos of Erna Mohr. And yes, I am very pleased that I had got the opportunity to meet him several times. I think about that times he showed me the breedingstation in Bialowieza and when he showed me "Björnson" in the conference hall!!

And I will always remember you [ed.: M. Bołbot] and him as an very succesful team in the work of the Pedigree Book.

And I remember that time we walked together with him in the Bialowieza forest near the border of Belarus and we had the opportunity to talk about a lot of things. And a strange thing was that we at that time talked about a plant/a flower. I don't know the English name, we talked about it as "Dafne...". And believe it or not, that plant had FLOWERS YEASTERDAY in my garden!!!!

Tommy Svensson

Farewell, Dr. Raczyński! Farewell, my Friend!

Małgorzata Bołbot
